arXiv:math/0703502v2 [math.NT] 29 Mar 2007

This text is withdrawn. P. Vojta indeed informed us that the full conjecture has been proved (by analytical means) independently by McQuillan in an unpublished manuscript "Old and new techniques in function field arithmetic", and by K. Yamanoi, "The second main theorem for small functions and related problems." Acta Math. 192 (2004), 225-294, Theorems 2 and 5.
